Meet the newly elected Student Representatives

On Graduate Students Day November 13, 2019 we elected our new student representatives: Anna-Lena, Mohamed, Kora-Lee and Sophia. They represent our interests towards authorities at HMGU. So do not hesitate to contact them for whatever reasons.

A big THANK YOU to all doctoral researchers that took part in the N² Survey. About 25% of the HMGU doctoral researchers participated and within the whole Helmholtz Association we have more than 1500 participants, which is a great result. Your voice is important to help represent the interests of Dls. For the first time we have the chance to formally report on the status of Power Abuse and Mental Health among doctoral researchers. These often ignored or suppressed issues urgently need an open discussion.

We are looking forward to the report and we will keep you updated on the first results in this newsletter.

Thank you for participating in the N² Survey

Please express your interest by pressing "Interesse". If there are enough people interested the courses will be offered more than once per year.
