To report your contract issues to Reiner Schroll from the Works Council, contact him at betriebsrat@helmholtz-muenchen.de. He not only helps you to find solutions, but he is also collecting cases to have more power in negotiations with the directors. So it is very important that you report your case. Contact is ALWAYS confidential if you wish it.

If you are in a similar situation please contact Dr. Reiner Schroll from the Works Council at schroll@helmholtz-muenchen.de. Particularly our doctoral fellows in their last year, which got the extension rejected are facing serious problems.

Many of us are struggling concerning contract extensions, because of the financial situation of HMGU. Especially our doctoral fellows in their last year, which got the extension rejected are facing serious problems.

We want to report your problems to the Works Council and to negotiate with the directors.

PhD students???, researchers?, doctoral candidates?, Hello fellow PhDs???, doctoral researchers and Leibniz PhD Network. Find more information on N² here: [http://n2-network.net](http://n2-network.net)

The number of participants is limited. In case of overbooking, we will keep a waiting list and contact you if any spots become available.

Want to contact us? doktorandeninitiative@helmholtz-muenchen.de

**Contact is ALWAYS confidential if you wish it.**

Did you know that you will receive a Dr. at Helmholtz centers?

The term PhD student originates from English-speaking countries where doctoral studies are usually completed as a PhD (Doctor of Philosophy). Unlike doctoral degrees in German-speaking countries, PhD programs after the form of a specific study program, the PhD program that the candidate submitted lecture and examinations and has a standard duration of three to five years. The Helmholtz centers do not offer such a program.

What do you do as a Helmholtz is called a Promotions. This term refers to achieving a doctoral degree in a specific subject and the right to use the term Dr., recognized by a doctoral degree certificate. A doctoral degree is this sense is not a structured program of study but takes the form of independent academic research on a topic chosen by the doctoral candidate and conducted under the mentorship of a supervisi- ng professor.

Therefore, you actually are a doctoral candidate or doctoral researcher short DR (in German Doktorand/in or Doktorin) - not a PhD student if you are doing your doctoral studies at Helmholtz.
