Dr. Wafa Bouaziz graduated in biochemistry and pharmacology of aging at Pierre and Marie Curie University in Paris in 2011. In 2015, she received her PhD in Bone and Joint Biology in Paris-Diderot University, where she conducted pre-clinical research on the role of Wnt inhibitors in alleviating cartilage degradation in osteoarthritis. After her promotion, she worked for two years as a postdoctoral researcher on the role of adhesion molecules in the development and progression of skin cancer in Max Planck Institute of Biochemistry in Martinsried. In February 2017, Wafa joined Orphix Consulting GmbH in Munich as a Regulatory Affairs Manager. As of February 2019, Wafa is the Head of Regulatory Affairs at Orphix Consulting GmbH. Following the talk we will have the possibility to get in touch with her more personal during our afternoon snack.

Please register under mirjana.gusic@helmholtz-muenchen.de if you want to join the afterwards snack. The talk is open for everybody.
