

YOUNG ENTREPRENEURS IN SCIENCE

WORKSHOPS IN MUNICH FOR DOCTORAL STUDENTS

You almost made it, but you are not sure how to proceed after your PhD? You want to take care of your future career yourself, but you lack the inspiration or a sparking business idea?

How to take your ideas from paper to practice and develop entrepreneurial skills?

We help you to develop your own potential and to expand your qualifications. Our four-day interactive workshop series will teach you more about yourself and the opportunities you have to translate your strengths and your creativity into concrete ideas with the help of practice-oriented methods and tools, e.g. design thinking and other creativity techniques.

PROGRAMME

HOW IT WORKS

Register now to secure one of the limited places:
www.young-entrepreneurs-in-science.de
If you have any questions, contact workshops@falling-walls.com

The location of the event will be communicated to you along with your registration confirmation by e-mail. Participation is free but binding for all workshop dates. Sign up now!

SAVE THE DATES

We want to maximize your experience and knowledge. If you decide to participate, we ask you to bookmark all follow-up appointments.

WHEN

28. - 29. Januar 2019 in Munich
27. - 28. Februar 2019 in Munich
