

## 3<sup>rd</sup> Leipzig International Meeting for Interdisciplinary Obesity Research

**December 11-13<sup>th</sup>, 2019**

The eGMD brings the expertise together! Dedicated to the cross-cultural, interdisciplinary research on obesity, it will integrate various aspects of (epi)genetics, gene x environment interactions, functional genomics up to the potential translation of this knowledge in medicine. With an exclusive list of renowned speakers, we particularly approach and invite early and mid-career enthusiastic scientists to join us in a lively debate and exchange.

**Meet the experts in the field of **genetic** and **epigenetic gene regulation** in **obesity** and related **metabolic diseases****

**! No registration fee ! Apply for travel grants !**
